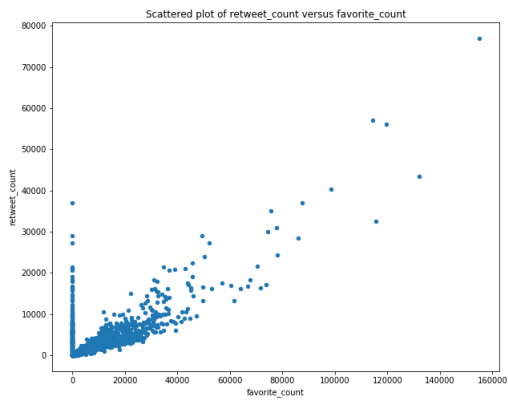

Figure 1: Scattered plot of retweet count versus favorite count

From figure 1 there appears to be a positive correlation between favourite and retweet. So we could say as the count of the favorites dogs increases, the more the retweet counts also increases.

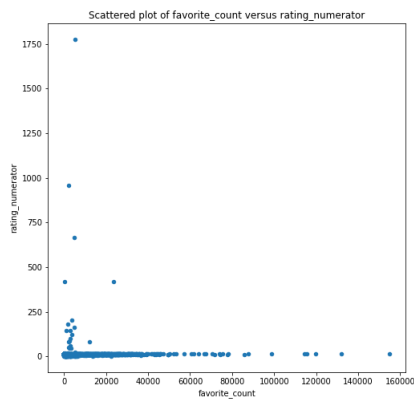

Figure 2: Scattered plot of favorite count versus rating numerator

From figure 2 there is no correlation between favourite and rating . The rating does not affect the rate at which people like the dogs.

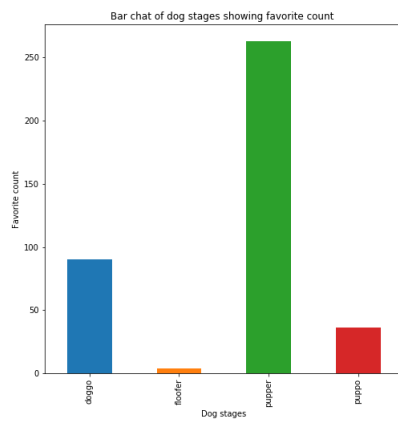

Figure 3: Bar chat of dog stages showing favorite count

Figure 3 reviews that the dog stage pupper has the highest favorite count.

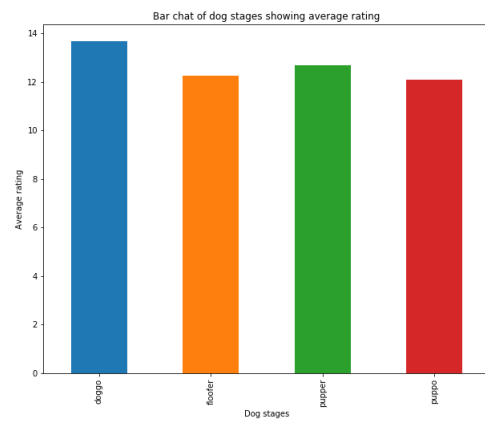

Figure 4: Bar chat of dog stages showing average rating

Figure 4 reviews on average, that the dog stage doggo on has the highest rating on average.
